Objective

Highly experienced Full Stack Software Engineer with over 5 years of experience in the industry, specialising in crafting efficient, scalable, and user-friendly software solutions. Having led key projects at Raise, a renowned African company that provides capital management solutions, I'm well-versed in modern technologies, including **React**, **Vue**, **Express (Node.js), Golang, Nuxt.js,** and **Flutter**. I'm seeking a challenging Full Stack Developer role where I can leverage my technical and leadership skills to contribute to innovative software solutions.

Experience

Senior Full Stack Software Engineer | Raise | Remote | 2018 - Present

- Led the development of the "Deal Room" functionality, enabling founders to efficiently manage fundraising processes, attracting a substantial user base increase of 200%.
- Spearheaded the creation of the "Data Room", providing companies with a platform for efficient file storage and sharing with stakeholders.
- Developed the "Vesting" feature, allowing companies to issue ESOPs to employees and automatically update the capital table upon maturity.
- Used a combination of React, Vue, Express (Node.js), Golang, Nuxt.js, and Flutter to build and optimise large-scale web applications.

Full Stack Software Engineer | Genius Dynamics | Mombasa, Kenya | 2017- 2018

- Worked on various projects using Vue, WordPress, Joomla, Node.js, PHP, and Android development.
- Developed scalable backend solutions with Node.js and PHP.
- Designed and implemented user-friendly interfaces with Vue, WordPress, and Joomla.

Skills

- Expertise in JavaScript frameworks (React, Vue, Nuxt.js)
- Proficiency in Node.js (Express), Golang, Flutter
- Experienced in database management (Postgres SQL, MongoDB)
- Familiarity with AWS cloud services
- Proficient in Git and Continuous Integration
- Full Stack Development
- Excellent problem-solving abilities
- Strong team leadership and collaboration skills
- Great listener and highly curious

Education

Bachelor of Computer Applications | Dr. Ambedkar University | India | 2014 - 2017
